

ACTION PLAN

The **Action Plan** is one of the most important steps of School Travel Planning (STP). After completing the **baseline data collection**, you can start to look at potential solutions and next steps to address your school community's concerns related to safe and active transportation.

Feel free to use the **Action Plan Template** or create your own. The Example below organizes the Action Plan by broad objectives. Within each objective are the specific action items and tasks, which are assigned to specific individuals or groups with a target timeframe.

The final two columns allow for adjustments (revisions, additions, and removal of action items) to be made to the Action Plan during the **Carry Out** step of the STP. The Action Plan is a living document and action items should be monitored and updated regularly to keep it current.

As you complete action items, add them to your **Celebrate Your Success** page and celebrate your achievements!

EXAMPLE

ACTION	TASK	RESPONSIBILITY	TIMEFRAME	CURRENT STATUS / UPDATE	NEXT STEPS
Objective 1: Improve the safety of children on the active school journey					
EXAMPLE: Have sidewalks constructed on streets leading to school	<ul style="list-style-type: none"> - Discuss with City Transportation department - Seek approval for funding or do necessary fundraising - Construction of sidewalk 	Sue (parent) John (parent) Municipality	<M/Y> to <M/Y>	Proposal sent to Municipality - waiting for response
